

# CLOUD WORKLOAD MIGRATION

## about us

Centroid is a cloud services technology company and Oracle Platinum-level partner, offering IT consulting, cloud managed services, and cloud solutions. We provide consulting and managed cloud services that span the entire enterprise. From application to technology to infrastructure, Centroid's end-to-end capabilities deliver the highest quality services, helping you modernize, transform, and grow your business.

Embedded in our DNA is a relentless pursuit to help you succeed. Through our unparalleled understanding of Oracle, complete service offering, and dedicated technology experts, we go beyond the surface of business and technology to help you accomplish your goals.

Our expert consultants are flexible and responsive, and are deeply dedicated to making sure your mission-critical operations are running smoothly 24 hours a day. They focus on your business requirements, develop a comprehensive understanding of your Oracle environments, and seamlessly integrate with your IT team.

By relying on Centroid to handle your enterprise applications, technology, and infrastructure you will:

- Save time
- Save money
- Save yourself from unnecessary worry

## centroid: your risk-free cloud workload migration experts

The facts are in. Cloud workload migrations can significantly increase business performance while reducing expenditures, and each year you're not on the cloud, you're falling behind. But your IT department is overloaded. You don't have time to plan and execute a cloud workload migration right now – and your IT backlog suggests you won't have time for years.

It's time to call in the experts.

Centroid offers 20 years of experience working with the full-stack of Oracle options, a long history of cutting-edge cloud experience, and an earned reputation for risk-free cloud transformations. With a cloud workload migration from Centroid, your company can "dive up" to the cloud stress-free – whether you're migrating small workloads or mission-critical, global systems.

If your company requires a risk-free workload migration with no downtime, choose Centroid's proven, 5-step migration process:

### 1. planning

Cloud workload migration experts work directly with your management teams to optimize your current processes and identify your ideal compute, memory, and storage requirements.

### 2. architecture

Centroid designs and builds your custom environment, and then maps your data, ensuring that your global users have efficient, effective processing right-sized and scalable for even your heaviest workloads.

### 3. implementation

Enjoy a stress-free implementation handled by one of the top Oracle Cloud migration teams in the world. Only Centroid has the knowledge and experience to get your workloads up and running this easily.

### 4. migration

Experience zero downtime and zero risk during your migration with data replication protection and automated seamless switchover – if you need it.

### 5. support

Choose optional monitoring, disaster recovery, and cloud system maintenance with 24/7 support, helping you not only dive up to the cloud, but also dive in to true IT freedom.

Pull ahead of the competition and maximize your business technology's capabilities when you "dive up" to the cloud with Centroid: Your Risk-Free Cloud Workload Migration Experts.
